EXPERIENCE

Enternship
Eszterházy Károly Catholic University

📅 20-07-2021 – 15-08-2021   📍 Hungary,Eger

- Summer internship about machine learning and Data science.
- Skills Learned : Python, Python libraries, Data science, Machine Learning, Githup, Git.

PROJECTS

Python web application based Machine learning
Flask web application/Python

- The project is a web application built using flask framework for predicting diabetes results, which is a machine learning model deployed on it.

Thesis Topic
recommendation engine-ml-model/Eszterházy Károly Catholic University

- my thesis topic is about recommendation engine model that's deployed on website using flask framework and connected to PostgreSQL, the project has been deployed on Heroku, here is the link : https://movierecommender99.herokuapp.com/

Student Management
C# sharp projectl/Eszterházy Károly Catholic University

- student management is a desktop application that was made in Visual Studio windows forms and linked with MySQL database

Django
Django project/Eszterházy Károly Catholic University

- this project is a web application that implements CRUD methods within PostgreSQL database.

Movie Android app based REST
Java project

- Movie android app is an app was built in android studio using java, volley library, Postman, MVVM architecture.

Restful api
Spring boot projectl/Eszterházy Károly Catholic University

- Restful API using Spring and public Shakespeare database.

Blog
**PHP project/Eszterházy Károly Catholic University**

- this project is a blog made by using Laravel framework and XMPP server.

you can find more details of all the listed projects on GitHub and other more projects as well (GitHub link is in the top of CV)

MY LIFE PHILOSOPHY

"work hard in silence, let success make the noise."

STRENGTHS

C#   Java   Python   PHP   Excel   Laravel   Flask   data structure   REST API   Spring boot   Data Science   Maching Learning   pandas, numpy, matplotlib   scikit learn, Keras, Ten   Mysql, Sql, Sqlite   PostgreSql, MariaDB, MongoDb   HTML   CSS   BootStrap   MVVM   MVP   MVC

Adaptable to change   Hard-working   communication   Motivator & Leader
